WATER SERVICE AT WYNSTONE

Water service to the Wynstone Housing Development is provided by the Clay Rural Water System, Inc.

Clay RWS is a regional rural water service that provides water service to 2,275 customers in Clay, Union, Yankton, Turner and Lincoln Counties. Clay RWS is a non-profit, member-owned utility governed by a member-elected Board of Directors. The water system headquarters is located 15 miles north of Vermillion on SD HWY 19.

The Wynstone Development utilizes a dual water system with separate mains, service lines and meters for potable domestic water and irrigation water. Irrigation water is pumped from the lake in the center of the development while domestic water is delivered from the water treatment plant in the northwest corner of the development. Average pressure is 70 psi.

WATER SERVICE CONNECTION COSTS

Costs

New services are required to pay a \$1,700.00 Connection Fee and an Excavation Fee (according to the chart at right). The Connection Fee includes a \$25.00 Membership Fee.

Service Lines

Clay Rural Water will install the service lines from the mains to the basement of the residence. A curb stop or shut off valve will be installed near the front of the property. Standard service lines are 1". Upsizing will be quoted upon request. Clay Rural Water will maintain ownership of the mains and service lines up to and including the curb stop. Following a one-year warranty, the service lines from the curb stop to the residence will be the responsibility of the residence.

Water Meters

Clay Rural Water will furnish, install and maintain two standard 3/4" water meters - one for domestic water and one for irrigation. Upsizing will be quoted upon request. Meters are typically installed in the residence basement. Some variation may occur on placement of irrigation meters. Each meter will be read monthly with radio-read technology by Clay Rural Water personnel.

Residents Connection

Residents will be responsible for connecting their plumbing to the water meters. Irrigation systems must have proper back-flow prevention installed.

EXCAVATION FEE SCHEDULE

Length	Charge	Total
100	\$3.50	\$350.00
